

Dumpster Rental Agreement

- Asbestos, chemicals, wet paint, tires, fuel, fuel tanks, oil, oil drums, refrigerators, and anything with freon etc. cannot be put into the dumpster. You will be responsible for all of the dumpster's contents when it is picked up, including anything put into it by other people.
- Debris and sharp objects should be removed from the area where the dumpster will be placed and access points to that place. Dumpsters will not be placed on loose dirt, loose gravel, or in muddy areas where our truck cannot operate effectively.
- If you would like the dumpster placed in the grass or the street, we are not liable for any damages to the area where it was placed or city citations.
- The dumpster can be filled up to the height of its walls, but not higher, at the driver's discretion you may be subject to an overfill/defacing fee of \$100 for debris that ascends higher than the dumpster walls or for any paint sprayed on the dumpster. The dumpster has a weight limit of 3 tons, or 6,000 pounds. We reserve the right to charge an overage fee of \$100 per ton over weight limit.

Weight Limits:

10 yard max 2 tons 15 yard max 2.5 tons 20 yard max 2.5 tons

- The use of Smash My Trash is not premitted
- In the extremely rare event that the dumpster is too heavy for the truck to lift, you will be asked to remove debris from the dumpster until we can lift it. If we can't lift the dumpster or there is something blocking the dumpster, there will be a \$100 trip fee. If it is determined that an excavator and additional dumpster will be needed due to weight, there will be an additional fee of a \$400 excavation fee in addition to the original \$100 trip fee. This does not include the cost of an additional dumpster if needed. All of these fees, and the dumpster if needed, will be the responsibility of the customer.
- Your rental includes a 14 day period to fill the dumpster and ONE dump. If you'd like the dumpster dumped and returned, it is treated as a new, full-price rental, and the rental period will start over. If you'd like to keep it longer, it will be \$25 per additional week. If we fail to pick up the dumpster at the end of your rental period, you will NOT be charged for that extra time.
- Be sure to close and latch the loading door when the dumpster is ready for pick up.
